

LPS DOCUMENT CANCELLATION AUTHORIZATION

Document Number: LMS-CP-1722

Document Name: Center or Software Releasing Authority Selection and Training

Reason for cancellation

This process began when the original NPD 2210.1, "External Release of NASA Software," was first approved (NPD 2210.1 was cancelled by NPD 2820.1, "NASA Software Policy," August 30, 2005). Training was required for those appointed as the Software Releasing Authority on Center. Currently, developers are aware that there are restrictions and prohibitions on transferring software without review or approval. Also, the authority to appoint these people is clearly defined in NPR 2210.1, "External Release of NASA Software."
